for a free consultation.

Principal Investigator:
Tomoko Kitago, M.D.

**Study Coordinator and Clinical
Research Therapist:**
Heather Pepper Lane, MA, OTR/L

Clinical Research Therapist:
Marissa Wuennemann, MOT

What Do We Do?

Participants will complete a 6 week (18 session) task-oriented therapy program using the ArmeoSpring by Hocoma. ArmeoSpring is specifically designed for individuals who are beginning to regain active movement of the arm and hand and can benefit those who have suffered strokes, traumatic brain injury or neurological disorders resulting in hand and arm impairment.

Please contact us for a free consultation to determine if you are eligible.
